STATISTICS ON INTERLIBRARY LOAN TRANSACTIONS
HANDLED BY MISSOURI RESOURCE LIBRARIES
THROUGH THE MISSOURI STATE LIBRARY
1983

During the calendar year 1983, the State Library received 31,400 author/title requests through interlibrary loan from libraries in Missouri. The State Library filled 2,629 (or 8.3% of the total) from its own collection.

The balance of 28,771 (or 92%) were circulated via computer terminal, TWX or mail to the state's six other resource libraries for their searching and action. The six other resource libraries together filled 10,005 (or 34.7%) of those titles circulated to them.

A total of 18,766 titles were not found by any of the resource libraries. This represents 59.7% of the total requests. The overall percentage of filled requests by resource libraries was 40.2% during the calendar year of 1983.

FOREWORD

In this directory you will find a compilation of statistics regarding the public, college and university, special and institutional libraries in Missouri.

The directory is arranged alphabetically by towns or cities in which the libraries are located. The locations of branch outlets of libraries are cross-referenced to cities in which headquarters are located. The index in the back of the directory is arranged alphabetically by library name.

The directory attempts to describe each library in terms of its total program, and it is hoped that this form of presentation will enable the user to gain an insight into the library in a way impossible through the use of scattered statistics.

Every effort has been made to assure that the statistical information in the directory is accurate as reported to the State Library by local libraries. No effort has been made to verify information submitted by local librarians. If in some instances certain statistical information does not appear it is because it was not reported on the statistical form.

Following the alphabetical arrangement by town or city is a breakdown of library service in Missouri by county.
